

# Workshop 25.10.2022

## Hot Topics in Graph Neural Networks

### Speakers

Fabian Jogl

TU Wien

Do we need to Improve Message  
Passing?

Massimo Perini

University of Edinburgh  
Graph Streams

Hannes Stärk

Massachusetts Institute of Technology  
Geometric ML for Molecules

Maximilian Thiessen

TU Wien

Expectation Complete Graph  
Representations using Graph  
Homomorphisms

Rakshit Trivedi

Harvard School Of Engineering  
And Applied Sciences  
TBD

Petar Veličković

DeepMind / University of Cambridge  
Algorithmically-aligned GNNs

### Hosts (GAIN)

Josephine Thomas

Alice Moallem-Oureh

Clara Holzhüter

Silvia Beddar-Wiesing

The workshop will be held in  
a **hybrid** manner.  
Come in person or as an  
avatar in our 2d-world!

Please find more information here:  
[workshop.gain-group.de](https://workshop.gain-group.de)

We are happy to cordially invite students, researchers of all stages as well as everyone else interested!
